FOREWORD

Shaheed Benazir Bhutto Women University Peshawar is a premier women university of Khyber Pakhtunkhwa. It has earned this position by virtue of its futuristic outlook towards higher education, strong emphasis on need-based research and focus on innovation and entrepreneurship. Its academic programs are designed to meet the national needs and challenges of the new millennium. While traditional fields of Social, Biological and Physical Sciences have been updated with emerging trends, modern disciplines are being offered to prepare professionals to manage the ever-growing demands of knowledge economy with requisite degree of expertise. By the grace of Almighty Allah, SBBWU has come a long way in developing as a global centre of excellence for imparting higher education. The universities at large have assumed the role of drivers of knowledge-based regional development. SBBWU, being a premier educational institution in Khyber Pakhtunkhwa has been keenly building a consortium across the government, business and higher education sectors to actively pursue sustainable growth of a knowledge-based economy. SBBWU's top priorities are giving its academic pursuits a tinge of diversity and, using its unique position of a leading public sector women university, harnessing available academic opportunities for our scholars both inside and outside the country. To this end we have developed linkages with renowned international universities in just a few years since its inception.

We believe that the women of Pakistan in general and those of KPK in particular need to rise up to the current challenge faced by the country and herald a new prosperous and peaceful future for the nation. The faculty and students of the Shaheed Benazir Bhutto Women University are ready to be the torch bearers towards that goal and are confident that they can do so as they march towards turning this seat of learning comparable to any in the world.

SBBWU has made its mark and is continuing its forward march. In contemporary times, the transformation in the world economy is perennial; technologies evolve at neck breaking speeds. These are extra ordinary times requiring extra ordinary preparations and efforts. Students and parents alike acknowledge the changing trends and are eagerly seeking out institutions of higher learning where their thirst, curiosity and drive for knowledge are adequately quenched; where all round personality development takes place holistically, abreast with knowledge and managerial skills and the drive to lead and succeed; where they can take charge of their futures with an open mind, not fearful of anything while exploring their chosen fields.

3. A Glance at the Budget Estimates for the Year 2013-2014

An amount of Rs.329.00 million has been demanded as grant-in-aid from Federal Government through Higher Education Commission to control the serious alarming situation in the said year & to meet salaries expenses, contingent expenditure and other unforeseen charges during 2013-2014 as a result of shifting to Larama.

Income from University's own resources is expected to be Rs.94.703 million. The main source of income would be admission fee, tuition fee, examination fee, hostel charges etc. The estimated expenditure of Rs.423.703 million includes Rs.197.498 million on salaries of the staff/faculty/officers against the revised expenditure of Rs.106.841 million during 2012-2013. It has also a provision of Rs.226.205 million for utilities and contingent expenditure. The increase in expenditure is due to the settlement of permanent campus at Larama, opening of new Academic Departments and increase in students' enrollment. On the contingent side, the increase is mainly due to inflation in the prices of commodities, increase in the rates of utility bills and purchase of books, physical assets, other Lab. equipment etc. The budget estimates for the year 2013-2014 can thus be summarized as below:
