

Course subjects studied:

1. Geomorphology
2. Introduction to Climatology
3. Oceanography
4. Economic Geography
5. Environmental Geography
6. Geographical Information Sciences
7. Remote Sensing and Image Processing

Admission Requirement:

- Eligibility/ Pre-requisite for admission: FA/F.Sc or Equivalent With 45%

DEPARTMENT OF GEOGRAPHY

8. Research Methodology
9. Political Geography
10. Geodesy and Navigation Satellite System
11. Region and Regional concept
12. Settlement Geography
13. Fundamentals of Geography
14. Physical Geography
15. Human Geography
16. Map Work
17. Geography of Pakistan
18. History & Development of Geographic Thought
19. Land Surveying

20.Principles of Cartography

21.Population Geography

22.Quantitative Geography

Address:
Shaheed Benazir Bhutto Women University, Charsada Road (Larama Campus)

➤ **Department of Geography Vision Statement:**

The vision of Geography Department is to:
"To provide quality education with the latest and advanced techniques and matters of research in order to equip the students for enabling them to take the challenges of current lives and work for the well being of the society."
"

➤ **Department of Geography Mission Statement:**

The mission of department of Geography is to

➤ **Aims and Objectives:**

The objectives of BS-4 Years Geography are

1. learn how human, physical and environmental components of the world interact.
2. discover geographic theory and its use in understanding real world processes.
3. acquire geographic analytical skills that can be applied to a variety of research and professional tasks where the analysis of spatial information is required.

➤ **About the Department:**

The Department of Geography is a newly established department in Shaheed Benazir Bhutto Women University. Geography is the most interdisciplinary subject and it is also the most integrated discipline on campus, insofar as the material taught in our classes about environmental processes can be found in other disciplines, but are only put together as a whole story in Geography. The Department of Geography is represented by Three Crosscutting Themes:

Earth System Science: the physical and biological processes of the environment

Human Geography: the way humans perceive, interact with, and modify the environment

Modeling, Measurement, and Computation: techniques for the collection, analysis, and interpretation of geospatial data using tools such as GIS, remote sensing, and spatial statistics.

➤ **Sailent Features:**

➤ **HEC approved curriculum**

- Internship facilities
- Hostel and transport facilities available
- Field visits
- Scholarships available for deserving students

provide a complete understanding of the range and depth of interdisciplinary and technical approach which signifies the human and physical spheres of geography. This understanding enables the students to utilize their full potential as skilled professionals and well-qualified technical experts in various fields like companies and government organizations to promote fruitful careers, active life-long knowledge, and desire to

<p>contribute positively towards society.</p>
